STATE WHEAT FORECAST AT 128.7 MILLION BUSHELS

OKLAHOMA: The State's July 1, 2005, wheat production is forecast at 128.7 million bushels, down 12 percent from last month and 22 percent below last year, according to USDA's NASS Oklahoma Field Office. Acres harvested for grain, at 3.9 million acres, are unchanged from the 2005 June Acreage Report. Average yield is forecast at 33 bushels per acre, 2 bushels less than last year's 35.0 bushel yield.

Peach production is forecast at 4,000 tons, doubling last year's 2,000 tons.

<u>UNITED STATES</u>: Winter wheat production is forecast at 1.53 billion bushels. This is down 1 percent from last month but 2 percent above 2004. The U.S. yield is forecast at 44.5 bushels per acre, up 0.4 bushel from last month.

Selected states' winter wheat production and the change from last year include: Kansas, 374.4 million bushels, up 19 percent; Washington, 127.7 million bushels, up 9 percent; Texas, 99.2 million bushels, down 9 percent; and Montana, 88.2 million bushels, up 32 percent.

Oat production is estimated at 131.3 million bushels, up 13 percent from last year. The estimated yield is 66.5 bushels per acre, up 1.8 bushels from 2004.

The 2005 peach crop is forecast at 1.24 million tons, down 5 percent from 2004.
